TITLE 14—CIVIL AVIATION

CHAPTER I—CIVIL AERONAUTICS BOARD

PART 40—AIR CARRIER OPERATING CERTIFICATION

PART 61—SCHEDULED AIR CARRIER RULES

SPECIAL REGULATION

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 14th day of October 1941.

It appearing that: (a) The War Department proposes extensive operations of Service aircraft in connection with army maneuvers to be held within a large area covering portions of Virginia, Tennessee, North Carolina, South Carolina, and Georgia from approximately November 14 to 30, 1941, which will jeopardize the safety of air carrier aircraft operating within that area other than in accordance with day contact flight rules;

(b) The air carriers which are authorized to operate over this area may safely conduct scheduled operations along suitable temporary alternate routes;

(c) Parts 40 and 61 of the Civil Air Regulations prohibit air carriers from operating over such temporary alternate routes unless route test flights have been made, certain air navigation facilities are available, and pilots and aircraft dispatchers used have demonstrated route competency;

The Board finds that:

Its action is in the public interest and in the interest of safety of air transportation;

Now, therefore, The Civil Aeronautics Board, acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 601, and 604 of said Act, makes and promulgates the following special regulation:

Notwithstanding the provisions of Parts 40 and 61 of the Civil Air Regulations which deal with airway route requirements, intermediate field requirements, radio route facilities require-

ments, weather route reporting, pilot and aircraft dispatcher route competency, and the amending of air carrier operating certificates and competency letters, scheduled air carriers which have been issued air carrier operating certificates authorizing operations over the area in which the War Department is to conduct army maneuvers from November 14 to 30, 1941, in certain portions of Virginia, Tennessee, North Carolina, South Carolina, and Georgia, may conduct, from October 14 to December 1, 1941, scheduled day and night contact and instrument operations over such temporary routes, with such facilities and personnel and in accordance with such proceedings and practices as the Administrator may deem necessary to protect the safety of air transportation.

By the Civil Aeronautics Board.

PETITION OF DISTRICT BOARD No. 11, FOR
THE ESTABLISHMENT OF PRICE CLASSIFI-
CATIONS AND MINIMUM PRICES FOR THE
COALS OF THE CHINOOK MINE OF THE
AYRSHIRE PATOKA COLLIERIES CORPORA-
TION

MEMORANDUM OPINION AND ORDER DENYING TEMPORARY RELIEF

Bituminous Coal Producers Board for District 11 filed with the Bituminous Coal Division a petition in the above-entitled matter on November 19, 1940, pursuant to the provisions of section 4 II (d) of the Bituminous Coal Act of 1937, in which it requested the Division to establish certain temporary and permanent price classifications and minimum f. o. b. mine prices for theretofore unpriced and unclassified coals to be produced at the Chinook Mine (Mine Index No. 121) of the Ayrshire Patoka Collieries Corporation, a code member of District No. 11.

Ayrshire Patoka Collieries Corporation filed a petition on November 20, 1940, with the Division praying that leave to intervene be granted, that the Director order an immediate informal conference to fix proper price classifications and temporary minimum prices, and that the price classifications and minimum prices proposed by the original petitioner for coals in Size Groups 13 to 16 and 26 to 29, both inclusive, and f. o. b. mine prices for shipments to railroads be granted, but the remaining price classifications and minimum prices proposed by the original petitioner be denied and that in lieu thereof there be established certain price classifications and minimum prices proposed by the intervener.

An informal conference in this matter was held on November 25, 1940, at which all interested parties were afforded an opportunity to appear and be heard.

On December 12, 1940, the Director entered an Order which granted, pend-

ing final disposition of the petitions, the temporary relief prayed for by the original petitioner and denied the temporary relief prayed for by the intervenor.

The intervenor, pursuant to an Order of the Director dated August 27, 1941, was granted leave to amend its petition of intervention and amended its original petition to request a minimum price of \$1.55, \$1.45 and \$1.15 for its coals in Size Groups 23, 24 and 25, respectively, and requested the granting of immediate temporary relief upon the close of the hearing for Size Groups 23, 24 and 25.

A hearing in this matter was held on August 28, 1941, pursuant to an Order of the Director dated August 21, 1941, before Charles O. Fowler, a duly designated Examiner of the Division, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard.

At the close of the hearing the intervenor filed with the Examiner a motion for transmittal to the Director requesting immediate temporary relief by the establishment of effective minimum prices of \$1.55, \$1.45 and \$1.15, respectively, for coals in Size Groups 23, 24 and 25 for shipment by rail to all market areas.

The Examiner granted interested parties until October 2, 1941, to file briefs in connection with this motion for temporary relief and a memorandum in support of the motion for temporary relief was filed on October 2, 1941, by Ayrshire Patoka Collieries Corporation, and one in opposition thereto was tardily filed on October 9, 1941, by District Board 11.

The Director has examined the record in this matter and has determined that the resolution of the issues raised herein would have a considerable effect upon the interest of other producers who sell coal in competition with those produced at the Chinook Mine. The issues involved herein are very complex and controversial. To grant the temporary relief prayed for by the intervenor before a more detailed consideration of the issues might seriously jeopardize the interest of interested parties. It seems desirable to delay any further action in this proceeding until a more detailed consideration of the record may be made and until the Examiner's Report may be considered. Moreover, no clear showing has been made that substantial irreparable injury would result if temporary relief were not granted.

Now, therefore, it is ordered, That the motion for temporary relief filed at the conclusion of the hearing and that part of the amended petition to intervene praying for immediate temporary relief at the conclusion of the hearing by the establishment for the coals of the Chinook Mine, minimum prices of \$1.55, \$1.45, and \$1.15 in Size Groups 23, 24, and 25, respectively, for shipment by rail to all market areas should each be and each hereby is denied.

Nothing herein shall be construed as a ruling or expression of the Director's

opinion concerning the final disposition of this proceeding.

Dated: October 14, 1941.

IN THE MATTER OF BEELER AND ROWLAND,
DEFENDANT

ORDER APPROVING AND ADOPTING THE PRO-

OF THE EXAMINER, AND REVOKING CODE
MEMBERSHIP

This proceeding having been instituted upon a complaint filed with the Bituminous Coal Division on December 2, 1940, pursuant to sections 4 II (j) and 5 (b)

of the Bituminous Coal Act of 1937, by Clark Coal Company (W. T. Clark), a code member in District 15, the complainant, alleging that Beeler and Rowland (a partnership composed of C. W. Beeler and J. B. Rowland), the defendant, a code member in District 15, willfully violated the Bituminous Coal Code and the effective minimum prices, and praying that the Division either cancel and revoke the defendant's code membership, or, in its discretion, direct the defendant to cease and desist from violation of the Code and effective minimum prices. At the hearing, the original complaint was amended so as to charge such violations from November 1, 1940, to the date of the hearing by both the partnership of Beeler and Rowland and by J. B. Rowland, as an individual;

Pursuant to an appropriate order, and after due notice to all interested persons, a public hearing in this matter having been held on February 14, 1941, in Unionville, Missouri, before Charles O. Fowler, a duly designated Examiner of the Division;

The Examiner having made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations in this matter, dated September 11, 1941, recommending that the code membership of J. B. Rowland be revoked and that the complaint be dismissed as against Beeler and Rowland, a partnership, and against C. W. Beeler, as an individual;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs and no such exceptions or supporting briefs having been filed;

It having been determined that the Proposed Findings of Fact and Proposed Conclusions of Law, and recommendations of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;
